REFRESHMENTS A canteen is available on site

ORDER OF CATALOGUE With the exception of bulls, all lots are sold in catalogue order. As indicated in the catalogue, the order of sale of bulls will begin with Champion and Reserve Champion.

HEALTH TESTS All animals have been pre-movement tested for TB in accordance with the current DEFRA regulations. Due to the nature of the disease, statements about Johne's Disease status are only given for animals from CHeCs accredited herds and in such cases, a whole herd Risk Level for Johne's will be given where available.

FERTILITY Females sold as "in-calf" have been PD tested as 12 weeks or more in calf on the day of the PD test. Females PD'd at under 12 weeks are not sold as in-calf.

MYOSTATINS From 1 January 2025 all animals registered are tested for Myostatin and the result will be shown on their certificate as either MYO = 0 or MYO = 1

NOTES

POLLED STATUS

Unless recorded otherwise the polled bulls brought forward have not been tested to determine if heterozygous or Homozygous type so bear in mind only homozygous bulls will produce 100% polled offspring.

Bulls registered in 2026 who have been birth notified as polled and/or look polled at time of inspection will be tested for the heterozygous or homozygous gene. This will be recorded on the certificate and the grassroots animal record.

NATIONAL BEEF ASSOCIATION TERMS & CONDITIONS OF SALE

Animals sold in Section 1 and 2 are sold under the NBA Terms & Conditions of Sale (unless where exceptions are specifically stated for individual lots sold as part of a Major Reduction or Herd Dispersal). The Society draws vendors' and buyers' attention to these Terms and Conditions which can be viewed in full at www.redrubydevon.co.uk, www.nationalbeefassociation.com, or by contacting the DCBS Secretary for a paper copy. Copies will also be available from Sedgemoor market on the day of sale. The Society draws vendors' attention to Annex 1 of the NBA Terms & Conditions "**Guidelines for the Standards of Good Husbandry and Management in respect of bulls purchased at Sales**". Animals sold in Section 3 of the Sale are sold outside of the NBA Terms & Conditions. The Society has fixed the "keep" element of these rules at £7 per week for Bulls and £5 per week for females.

DCBS INSPECTION OF CATTLE There is a statutory inspection of cattle arriving at market.

Bulls are inspected on Sale Day by the DCBS-appointed veterinary surgeon prior to the commencement of the Show a& Sale. In the case of a bull failing the veterinary inspection, the bull may not be sold on Sale Day, either through the ring or outside. Registration for any progeny from a bull failing the veterinary inspection that are subsequently entered for registration in the Davy Devon Herd Book will be subject to the progeny passing an inspection by DCBS, and the owner of the animals to be inspected will be required to bear DCBS' costs. DCBS will mark the bull's pedigree certificate on Sale Day with this restriction. The veterinary surgeon's decision on Sale Day is final. The owner of the bull may subsequently make a written request to DCBS for the bull to be re-inspected at

NOTES

a later date. All bulls are weighed on Sale Day. This is for guidance to the buyer on Weight for Age.

UPSET PRICE All bulls are sold subject to an upset price of 3000gns. All show heifers are sold subject to an upset price of 1500gns.

DESCRIPTIONS The written notes or verbal comments supplied by the vendor are not the responsibility of the Auctioneers or the Devon Cattle Breeders Society. The notes describing each animal included in the auction particulars, including health declarations, have in all cases been supplied by the seller. Whilst the Society makes every effort to ensure the accuracy of these notes, the Society cannot except any liability to the purchaser of any animal for any loss, damage, costs, expenses or other claims for compensation arising from any details or instructions supplied by the seller of that animal which are incomplete, incorrect, inaccurate or misleading in any way.

DCBS TYPE CLASSIFICATION SCHEME The DCBS operates its own breed specific type classification scheme to assist breeders' efforts in breeding the "ideal type" Devon. The scheme has been running since 2005. The classification scheme's scoring system measures skeletal conformation, mobility, and breed character to produce a Final Score of 100. Animals are classified by the Society's independent Classification Officer into the following classification designations: -

Moderate	"M"	scores 50-59 out of 100
Good	"G"	scores 60-69 out of 100
Good Plus	"G+"	scores 70-79 out of 100
Very Good	"VG"	scores 80-89 out of 100
Excellent	"EX"	scores 90-100 out of 100

Animals entered for sale which have been Type Classified will have their classification designation shown at the end of the pedigree registration number.

BLUE TONGUE GTH and Vendors are aware of and fully compliant with current Blue Tongue regulations and cattle movements.

SCHEDULE AND SPECIAL PRIZES

KEY TO DEVON HERD BOOK CLASSIFICATIONS

Letters in front of the animal's registration number	Definition
	Birth notified male. Birth notification is a precursor to registration. Bulls cannot be registered by the new owner unless sold as a calf at foot. Females are no longer birth notified.
F	Pure bred genetically horned female registered in the full Herd Book
PF	Pure bred polled female registered in the full herd book.
M, PM	Male equivalents of the above.
SR	Supplemental Register open to females only for genetically horned female
SRP	As above, for polled female
Number only	E.g. 112233 Full Herd Book Animal born prior to 1986
Percentage purity is stated up to 87.5% beyond which full purity is assumed	
Letters at the end of the animal's registration number	Definition
ET	Animals resulting from Embryo Transfer
F1	Females registered in the first tier of the Supplementary Register. These animals will bear a SR or SRP prefix (see above). Their female progeny, sired by a pedigree registered bull will be eligible for registration as F2 Supplementary Register. The male progeny of F1 females are not eligible for registration
F2	Females registered in the second tier of the Supplementary Register. These animals will bear a SR or SRP prefix. Their progeny, sired by a pedigree registered bull will be eligible for registration into the full Herd Book
SC	Scurred (incomplete/partial) development of horn growth

From 1st May 2019: Birth Notified bull calves (BN) will only be eligible for full registration and entry onto the Herd Book if they EITHER have a full set of parents and grandparents in the main section of the Herd Book, OR where the bull has a maternal F2 grand dam, all other grandparents are registered in the main section of the Herd Book.

Quality from the heart of Devon

Today offering COOMBE SKYLARK PM25085 Lot 10

A well put together polled bull with a lot of growth left in him. Proven at 15 months in covering Devon heifers and a Limousin cow. Sired by EASTYARD LARKSPUR and from the successful GAY GIRL line. Excellent blood lines back to STONEGROVE, ORSWELL, BARTON, BRIGHTLEY, CHAMPSON and WHITEFIELD.

Skylark is a full brother to Coombe Gay Girl 10th who had show success in 2023, including Breed Champion at Holsworthy, Female and Reserve Breed Champion at Mid Devon, and Breed and Inter Breed Beef Pairs Champion at Woolsery.

A bull that will add breed character and well-established bloodlines to your herd.
